MimioStudio

Maybe you'd like more interactive teaching tools. But maybe your teachers don't have the time to learn dozens of software programs. And maybe your budget wouldn't allow it, anyway. Not to worry. Now there's a single, easy-to-learn classroom software solution that can be used with any interactive whiteboards you already have.

"The MimioStudio Collaborate feature makes small-group work even more meaningful when students can share their work in the front of the classroom."

**Melissa Haney
First-Grade Teacher**

Award-winning, intuitive MimioStudio™ 11 software provides a single solution that seamlessly integrates all MimioClassroom™ products. And now it also powers virtually any type of interactive display from any other manufacturer. The new Collaborate feature allows classrooms to use multiple devices at the same time: Apple and Android tablets and phones, MimioPad™ wireless pen tablets, and MimioVote™ assessment.

- Integrates all MimioClassroom products with one easy-to-use software.

- Includes MimioStudio Gradebook, which automatically records multiple-choice, numeric, and short-answer responses to MimioVote assessment questions and eliminates the need for teachers to hand-grade tests.

- Students can use mobile devices equipped with the MimioMobile™ app for assessment via numeric, short-answer, and short-essay questions.

- Open-ended response questions help students practice for the upcoming Common Core Assessments.

- Designed to be used with interactive whiteboards and displays from other manufacturers, with support for pens, single touch, multi-touch, and gestures.*

- Imports files from SMART, Promethean, PowerPoint, and Common File Format (IWB), so teachers can use the content they already have.

- The MimioMobile annual license allows up to nine student devices to work simultaneously on a MimioStudio activity, with everyone's work displayed at the front of the classroom.

- Allows the simultaneous use of Apple and Android phones and tablets for assessment and collaboration.

Create effective and exciting lessons for whole-group and small-group learning

* Requires user or site license. Windows 7 and Windows 8: includes multi-touch and gestures. Windows XP, Mac OS, and Linux: single touch.

mimio®
a better way to learn

Key Features

Lesson Creation

- MimioStudio Notebook, multi-page workspace.
- Easy-to-use toolbar with powerful interactive tools.
- Object locking
- Adjustable transparency
- Object cloning
- Templates and backgrounds.

Content and Resources

- MimioStudio Gallery
- ActivityWizard, built-in activity creator.
- Online Gallery – Free resources from mimioconnect.com.

Collaborative Tools

- MimioStudio Collaborate
  – Connect multiple MimioPad tablets and/or mobile devices equipped with the MimioMobile app,* and students can work interactively in small groups.
- Pass desktop control to students using MimioPad tablets and/or mobile devices with the MimioMobile app.

Drawing Tools

- Color settings
- Brush tool
- Pen tool
- Highlighter
- Line styles
- Shapes
- Grids

Grade Scoring and Response

- MimioStudio Gradebook
  – Store testing results automatically from MimioVote assessment and MimioMobile app.
- Create questions that require short-answer or number responses, when using a mobile device with the MimioMobile app for assessment.
- Percentage and points-based grading.
- Export to third-party-compatible gradebook formats, including CSV.
- ExamView importer (Blackboard 6.0 – 7.0 format).

Presentation Tools

- Transitions
- Animations
- Spotlight
- Reveal

Recognition Tools

- Shape recognition
- Multi-language handwriting recognition.

Multimedia

- Embedded audio, video, and Flash files.
- Import audio, video, and Flash files.
- Multimedia drag-and-drop
- Record audio, video, and screen.
- Integrated with MimioView™ document camera, to record document camera activity.
- Video playback controls - Play/pause/rewind embedded files.

Multi-Device

- Hardware integration
  – Compatible with MimioClassroom hardware.
- Use with third-party interactive display products with the purchase of a user, site, or district license.

Power Tools

- Marker capture
- File attachment
- Keyboard shortcuts
- Onscreen keyboard

Languages

- For a complete list of supported languages, visit mimio.com/support/downloads/windows.

Cross-Platform

- Macintosh, Windows, and Linux operating systems.
- Controls all MimioClassroom hardware devices.
- File import flexibility – Import SMART Notebook, Promethean ActivInspire, PowerPoint, Word, and Common File Format (IWB), with minimal reformatting.
- Export to HTML, PDF, Common File Format (IWB), and image formats.

Technical Specifications

- Screen resolution: 1024 x 768 and higher.
- Standard file format: Proprietary INK file format.

System Requirements

- Windows XP, Vista, Windows 7 (on editions that natively support multiple-input), and Windows 8.
- Mac OS 10.6, 10.7, and 10.8.
- Linux Fedora and Ubuntu
- Windows 7 or higher required for multi-touch and gestures.
- For specific system requirements, please visit mimio.com/support/downloads.

Licensing Options

- **Standard** - Bundled with most MimioClassroom hardware.
- For use with any interactive hardware display:
  – **User** - Single-person license
  – **Site** - For a single site or building
  – **District** - For multiple sites within a district
- **Limited** – Available as a free download from mimio.com to play and edit files using limited features.

* Use with mobile devices requires the purchase of MimioMobile annual license.
